

AMENDMENTS TO THE SPECIFICATION

On page 7, please replace the paragraph beginning at line 13 and ending at line 18 with the following rewritten paragraph:

--In the example represented in FIG. 1, the modulator set 5 comprises ~~an analog/digital~~ a digital/analog converter 11 which receives the signals $I(-t)$, $-Q(-t)$ in sampled form from the central unit 2 and which recasts these signals into analog form, the converter 11 feeding two parallel circuits of an IQ modulator 12:--
